Trailer Parts

YORK
SIMPLY MILES AHEAD

Simply Miles Ahead

The YORK Group (YORK) manufactures trailer axles, assembles trailer suspension kits and distributes a range of truck / trailer components.

YORK's origin in the Asia-Pacific can be traced back to 1985 when YORK Australia was set up in Melbourne to gain a foothold in the Australian market for truck and trailer components. YORK Singapore was subsequently formed in 1989 as a base to expand into the fast-growing Asia-Pacific region.

YORK is recognised as the market leader in its field throughout the Asia-Pacific and Australia / New Zealand region.

YORK
SIMPLY MILES AHEAD

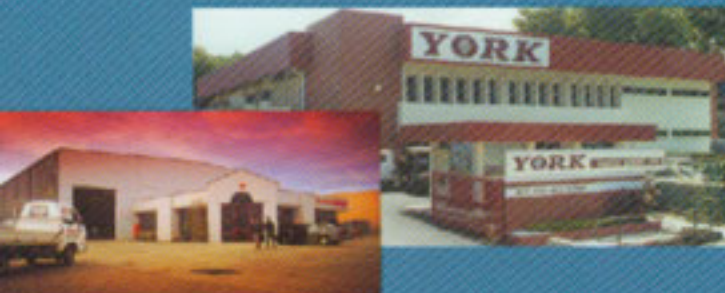

Axles are manufactured using strict quality control systems in accordance with ISO 9001, which YORK obtained in February 1993.

CERT NO.: 83-2-0138
SS ISO 9001: 2000

Our range of trailer axles is approved to various ECE Standards, certified by RWTUV and has compliance approvals with the Australian Design Rules. YORK was awarded the best Road Friendly Suspension Certificate for the new year 2000 regulations in Australia.

YORK products are recognised internationally for their Quality, Reliability, Performance and Durability.

YORK products are sold directly to Original Equipment Manufacturers of trailer builders, repair shops and major transport fleet, and supported through a network of authorised marketing partners. Today, YORK serves the needs of over 300 customers worldwide.

The Group's production facilities are strategically located in Singapore and Australia which are in close proximity to its core and potential customers. The geographical spread allows the Group to respond quickly to customers' changes in requirements and orders. Lead time is reduced as production is channelled to the most appropriate location.

Products and Components

Developing Total Suspension and Axle Solutions for the Semi-Trailer & Road Tanker Industry.

- Latest Range
- Superior Quality
- Widest choice
- Customisation Available
- Competitive Price
- Over 50 Years Experience

Axles

Approved to International Standards.
Full range of wheel fixings with capacities from 10 to 20 tonnes.

Round and Square Axles

- Available in brake size; 420 mm x 180 mm
420 mm x 220 mm
- Wheel Fixing BSF, ISO, JAP, DIN and SPOKE
- 285 and 335 PCD
- Wheels from 15" to 24" diameter

Heavy Duty Axles

- Improved design with easy maintenance castellated nuts.
- Available in 6" Square with 12 mm wall thickness and 6" round with 25 mm and 32 mm wall thickness.

Disc Brake Axles

- Newly designed 10 tonnes axle with 275, 285 and 335 PCD.
- Standard track length 1850 mm.

Self-Steer Axles

- Reduced tyre scrub and improved turning radius.
- Axle available in 3 different brake size; 420 mm x 180 mm
350 mm x 200 mm
310 mm x 190 mm to suit wheel size from 15" to 20"

Air Suspensions

Optimal load distribution for extended working life and reduced maintenance.

Tecair I, II and FB Air Suspensions

The simplicity of Tecair design is the key to its improved performance and increased reliability. Available with optional axle lift facility.

Mechanical Suspensions

Proven design and wide range of models to cover every application.

Multi-leaf Suspension

Standard trailer suspension. Single, tandem, and tri-axle in either overslung or underslung configuration. Capacities range from 10 to 20 tonnes per axle.

Dreadnought

Heavy duty cantilever bogie suitable for heavy duty and off-highway operation. Capacities range from 30 to 40 tonnes.

Argonaut

Swivel Axle Walking Beam. Capacities range from 80 to 100 tonnes.

YORK
GENUINE
PARTS
