To Whom It May Concern

York axles are fitted in our 20 trailers. We are using these axles since last 3 to 4 years our trailers are tip trailer. We are transporting hug qty of coal for using our own plant and trailers are running from Dipka to our plant khada Village, Bilaspur .We are happy with YORK product performance and also after sales service support is excellent. York is my most preferred choice for trailer components.

Thanking You,

For Hind Energy & Coal Benefication (I) Ltd.
