17th November 2015

York Axles are fitted in our 150 nos Trailers. We are using these axles since last 5 years. Our trailers are Car Carrier, Chassis Carrier. We are loading Cars, Trucks and all are running on highway. We had conveyed all fabricators to use York Axle and Suspension only in our trailers. We are happy with York Product performance and also after sale service support is excellence. York is our preferred choice for trailers.
