Fax : 228549, (M) 098795 08281 E-mail : jigar.roadlines@yahoo.in

York axles are fitted in our 20 Trailers. We are using it since last 4 years. Our Trailers are Tanker trailers. We are loading chemicals and trailers are running on highway off road area or inside the port etc.

York axles are giving us 30% better tyre life compare to local axles fitted in our old fleet. Excellent features like Hub grease interval at 1 lac kms, good brake efficiency and heavier axle beam with solid spindle are just making these axles most reliable in India. After sales service support is excellent. York is my most preferred choice for Trailer components.
