(Manufactures of All Types of Container Trailers, Body Fabrications and Repairs of Heavy Vehicles)

22-03-2014

To M/S York Transport Equipment (India) Pvt. Ltd.

- York is the most preferred choice for our customers (fleet operators). York axles are proven for its reliability in Indian operating condition. Though initial cost is little higher than competitor but it has proven lowest cost of ownership during the 5 years use.
- York is preferred by us for our Trailer components requirement due to better quality and customer satisfaction. York is providing excellent after sales service which is keeping us free from the daily maintenance hassles and we are able to concentrate more on our core trailer manufacturing business.
- We have started using York axles and suspension since last 5 (FIVE) years. Customers are liking our Trailers since York components are providing reliable performance and better tyre milleage. Customers are directly getting after sales service from York and making us hassel free form maintenance activities.
