Toll (India) Logistics Pvt.Ltd

Co ID No. U93090TN1996PTC034661

## To Whom So Ever It May Concern

This is to inform that we are having 52 trailers and all of our trailer are fitted with York 5021 with ABS YTE 75 Cast suspension. We are using York Axle since 2011 on our fleet and are very satisfied with the performance of York Axle ever since.

York Axles are found to be most suitable for Indian roads and their network across the country is found to be very satisfactory. York is also very responsive and provides prompt and on time after sales service support.

We are pleased to recommend York products without any hesitations to other transporters or companies in the transportation vertical.

Regards

Sanjiv Singh
