---

To whom it may concern,

Yeo Trailer International Pte Ltd was founded in 1995. Over the years, the company has grown together with her client to become one of the top trailer manufacturers in Singapore and the Asia Pacific region. We specialize in all types of trailers and provide extensive engineering solutions to our clients.

Since our inception, our choice of running gear has been YORK. We select YORK due to its reliability and durability. For the past 21 years, we have never had customer returning their trailers to us due to running gear issues. This speaks volumes on the quality of YORK product.

On top of this consistent quality and reliability, YORK further enhanced their running gear performance recently by introducing 3 new features.

- i. Polybush – Their polybush has been tested and proven to achieve a mileage of 100,000km maintenance free.
- ii. Vesconite bush – Their vesconite bush used in heavy duty suspensions is also achieving a mileage of 100,000km maintenance free.
- iii. YPS – Their York Precision System (YPS) is allowing customer to experience maintenance free wheel end for up to 100,000km for inboard and up to 300,000km for outboard axles as well as extending tyre life by up to 20%.

We have introduced all the above features in our recent trailers delivered to PSA Singapore and are pleased to confirm that at 19,000km, the tyres on the trailers are still brand new. Please refer to photo below.

Therefore, we have faith that YORK's claim of "**Lowest total cost of ownership**" is not just a marketing tool but an actual fact backed up by extensive testing through their global client base.

We have had a great 21 years partnering with YORK and we expect this partnership to continue for many more years to come. We would also like to wish you a similar long and satisfying relationship with them.

With Best Wishes,

A handwritten signature in black ink, appearing to read 'Yang Jiexiong', written over a light gray rectangular background.
